## 20<sup>TH</sup> ANNUAL EMN CONGRESS

May 28 — 30 2015, Zagreb, Croatia

## FINAL PROGRAM

## WELCOME MESSAGE

Dear Ladies and Gentlemen, dear Colleagues,

we are proud to have the honour to invite you to the 20<sup>th</sup> Congress of the Euroacademia Multidisciplinaria Neurotraumatologica (EMN) in Zagreb, Croatia. The scope of the EMN is the medical care for the patients with head and spinal injuries, starting at the site of the accident to reintegration of patients into the society and into their occupation following successful rehabilitation.

This issue can only be solved within the scope of scientific, multidisciplinary dialogue and mutual professional cooperation. The congress topics will reflect the rapid development and continuous breakthrough in the field of neurotraumatology. We will discuss the old and new standards of treatment from research to clinical practice and new technology.

This time we want to share our experiences together with our colleagues from the Southeast Europe Neurosurgical Society (SeENS). Therefore we are planning a very interesting and diverse program.

This Congress is going to take place in the heart of Zagreb, the capital city of the European Union 28<sup>th</sup> star - Croatia. The beautiful city of Zagreb offers so many attractions to visit in order to strengthen our friendship and exchange experience during the social events.

We are looking forward to welcome you in Zagreb.

**Professor

## CONGRESS VENUE

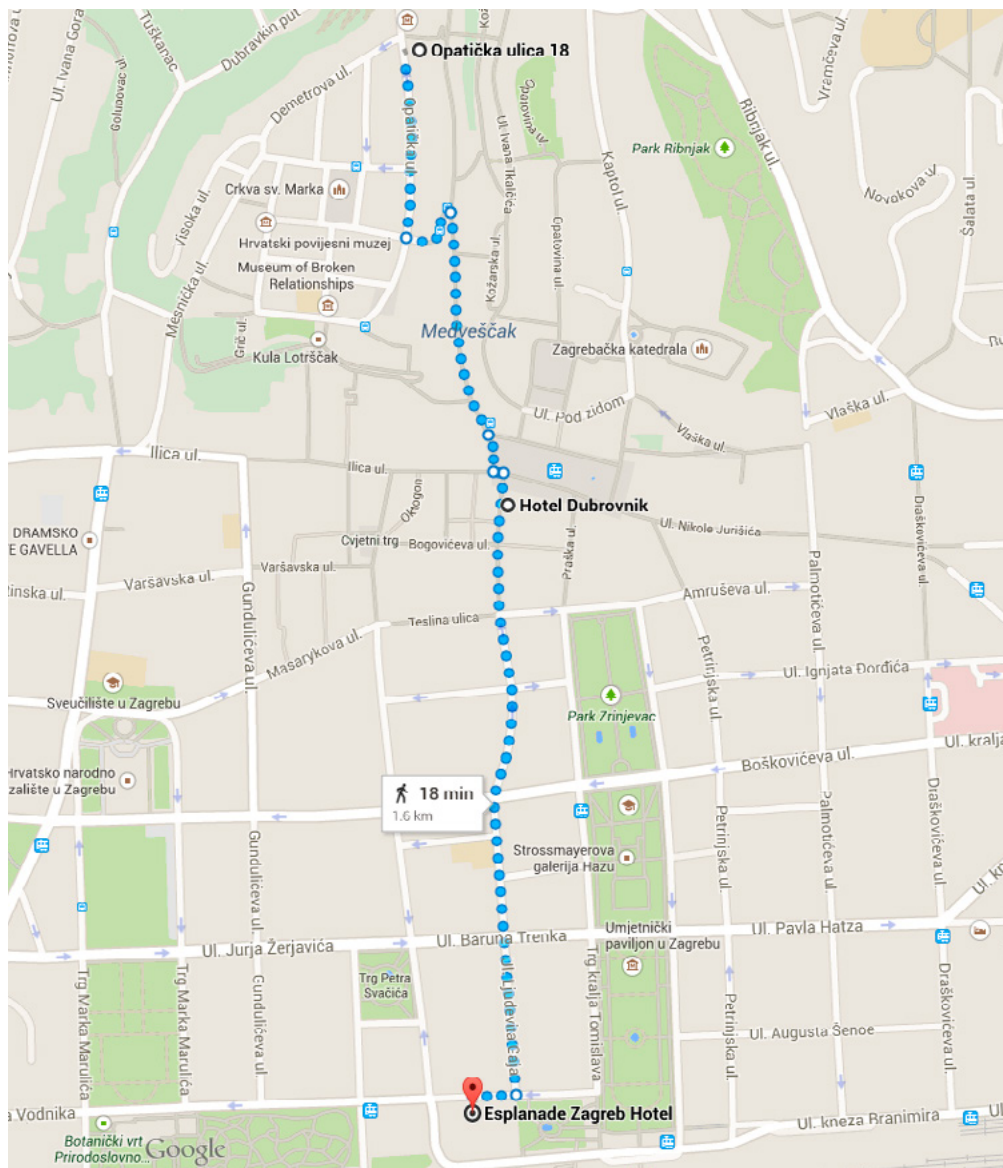

### National Hall “The Revival Stateroom” - The original seat of the Academy

The mansion today known as the National Hall, located in Opatička 18, originally housed a convent of the Poor Clares. After the order had been disbanded in 1782, the building was left to decay. It was subsequently renovated in the neo-Classical style, with an ornamental façade and an impressive classical interior, in order to serve as the Drašković family mansion in 1843. The Drašković family never fully settled in their newly-built home and therefore quickly sold it under favourable conditions to the leaders of the Croatian National Revival. It was the venue of numerous balls and great historic events. In 1868, the National Hall became the seat of the Croatian Academy of Sciences and Arts. After the Academy had moved into a new building on Zrinski Square in 1880, the Supreme Court was transferred to the National Hall, which had been state-owned since 1878. The Supreme Court used the building until the end of the Second World War, when it was returned to the Academy.

## ABOUT ZAGREB

### City of Zagreb

Zagreb is an old Central European city. For centuries it has been a focal point of culture and science, and now of commerce and industry as well. It lies on the intersection of important routes between the Adriatic coast and Central Europe.

When the Croatian people achieved their independence in 1991, Zagreb became a capital - a political and administrative centre for the Republic of Croatia. Zagreb is also the hub of the business, academic, cultural, artistic and sporting worlds in Croatia. Many famed scientists, artists and athletes come from the city, or work in it. Zagreb can offer its visitors the Baroque atmosphere of the Upper Town, picturesque open-air markets, diverse shopping facilities, an abundant selection of crafts and a choice vernacular cuisine.

Zagreb is a city of green parks and walks, with many places to visit in the beautiful surroundings. In spite of the rapid development of the economy and transportation, it has retained its charm, and a relaxed feeling that makes it a genuinely human city.

## EXCURSION

### Trakoscan Castle and Klet Kozjak

**Saturday May 29th € 1.00 pm - 11.00 pm**

On our excursion we will first visit Trakoscan Castle. Trakoscan is the most romantic and, in the opinion of many, the most beautiful preserved castle in Croatia, of which one historian wrote: „I do not know whether I felt happier in any other park than one in Trakoscan, and not only the first time, when it enchanted me, but every time I came there. „ Besides amazing faithful reconstruction of the castle which fully corresponds to 19th century, the castle Trakoscan contains valuable examples of baroque furniture, different weapons used from 15th to 19th century and other items. Moreover, a beautiful romantic gardens, built on the model of English parks, and a large lake in front of the castle is something that should not be missed.

After exploring the castle we continue to ethno restaurant „Klet Kozjak“, situated in the heart of Zagorje. We will enjoy homemade cuisine and taste different sorts of wine. Prepare yourself for something different, for something that was gone many years ago.
