

SeENS- Southeast Europe Neurosurgical Society

Mission and Statement

SeENS (Southeast Europe Neurosurgical Society) is a professional, nonprofit organization founded with the mission of improvement of neurosurgical care, training and research in Southeast Europe by developing and improving cooperation and experience exchange amongst neurosurgeons in the region.

SeENS is an organization of individual members and delegate neurosurgeons in practice and training dedicated to providing a forum for collegial relationships, a source of knowledge and mobility programs for trainees, space for scientific publishing and developing initiatives for international cooperation programs and new issues to be brought to neurosurgical societies in the Europe and the world.

The Society is committed to providing an environment for development and promotion of the highest quality of neurosurgical care to benefit the public welfare of the Southeast Europe.
